AMENDMENT

Sir:

In response to an Office Action from March 27, 2002, kindly amend the application as follows:

IN THE CLAIMS

Kindly replace claims 1 and 14 by the following claims in clean form and add new claims 42-53:

BT  
Sub  
CI  
1. (Amended) A wave digital filter, comprising:

a plurality of memoryless adapters each having two or more ports, each port comprising an input and an output; and

at least one controlled gate which delays the propagation of a value into or within at least one of the adapters, without affecting a result value provided by the wave digital filter.

B2  
14. (Amended) A filter according to claim 1, wherein the value delayed from propagating into or within the adapter is received from a different adapter.

B3  
cont.  
42. (New) A filter according to claim 1, wherein the delayed value comprises a value generated by at least one of the adapters of the wave digital filter.
